

Pre Vetting Instructions

Prior to a vetting being performed on the horse, we require the following points to be considered:

- Ensure that someone is available throughout the examination to
 1. Hold the horse
 2. Exercise in hand
 3. Ride the horse
- The horse **MUST** be stabled 3 hours prior to the appointment.
- A flat, hard surfaced trot up area is needed for part of the examination.
- An area where a fast canter can be achieved is required for part of the examination.
- We strongly advise that a blood sample is taken at the time of pre purchase examination for immediate or later evidence if required of non-steroidal/anti-inflammatory drugs.
- The time required for the vetting is 1.5-2 hours.
- The horse's passport must be present at the time of examination.
